KISSES
Keep It Simple Stupid
„Make Simple Tasks Simple!" Bjarne Stroustrup
„Perfection is achieved, not when there is nothing more to add, but when
there is nothing left to take away." Antoine de Saint-Exupery

DRY
Don't Repeat Yourself

S SINGLE RESPONSIBILITY
Class should have only one reason to change – **one job**.

O OPEN-CLOSED
Objects or entities should be open for extension,
but closed for modification.

L LISKOV SUBSTITUTION
"Functions that use pointers or references to base classes must
be able to use objects of derived classes without knowing it. "
Robert C. Martin

I INTERFACES SEGREGATION
Clients should not be forced to implement interfaces they don't
use. Instead of one fat interface many small interfaces are
preferred.

D DEPENDENCY INVERSION
High level module must not depend on the low level module, but
they should depend on abstractions.
